APPLICANT'S EXHIBIT 1

FIG. C

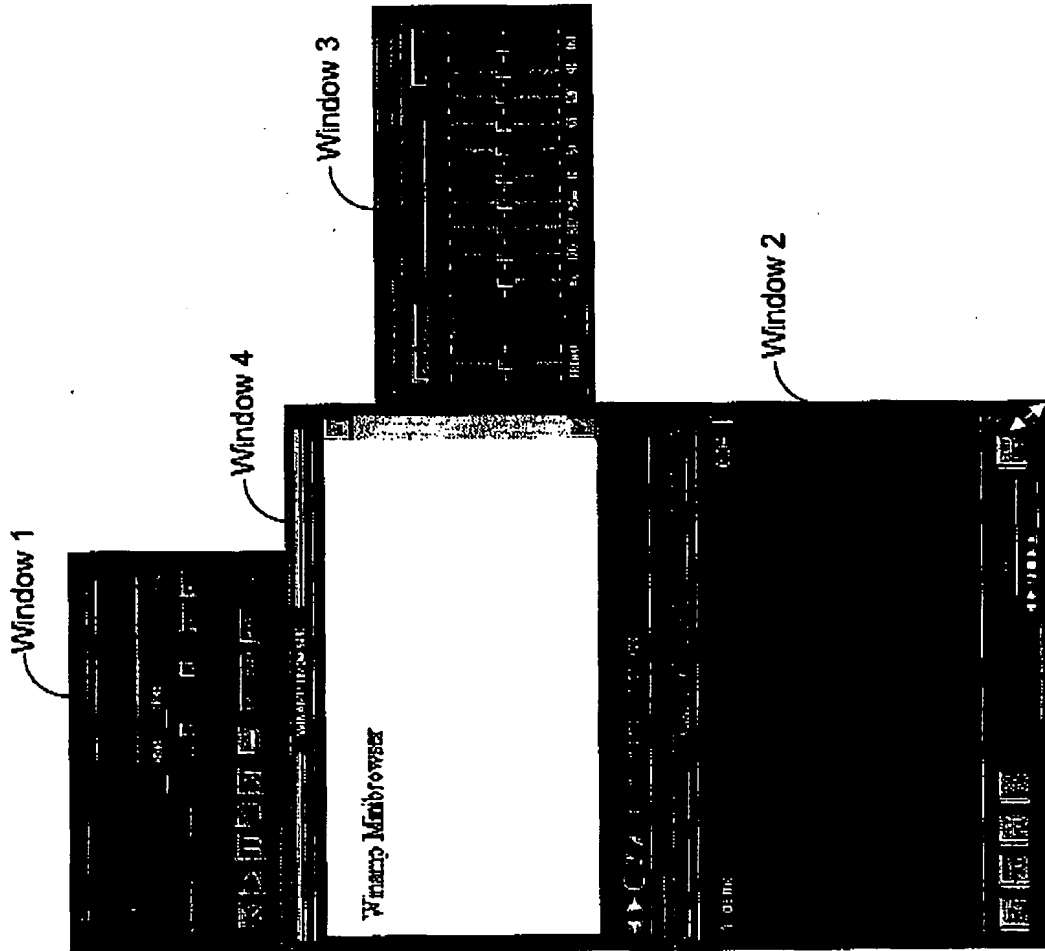

FIG. C illustrates docked positions of Windows 1, 2, 3, and 4. As shown, the bottom edge of Window 4 is docked against the top edge of Window 2 and the right edge of Window 4 is docked against the left edge of Window 3. In maneuvering the positions of the windows and adjusting the sizes of the windows, it is found that the sizes of Window 1 and Window 3 are fixed.

APPLICANT'S EXHIBIT 1

FIG. D

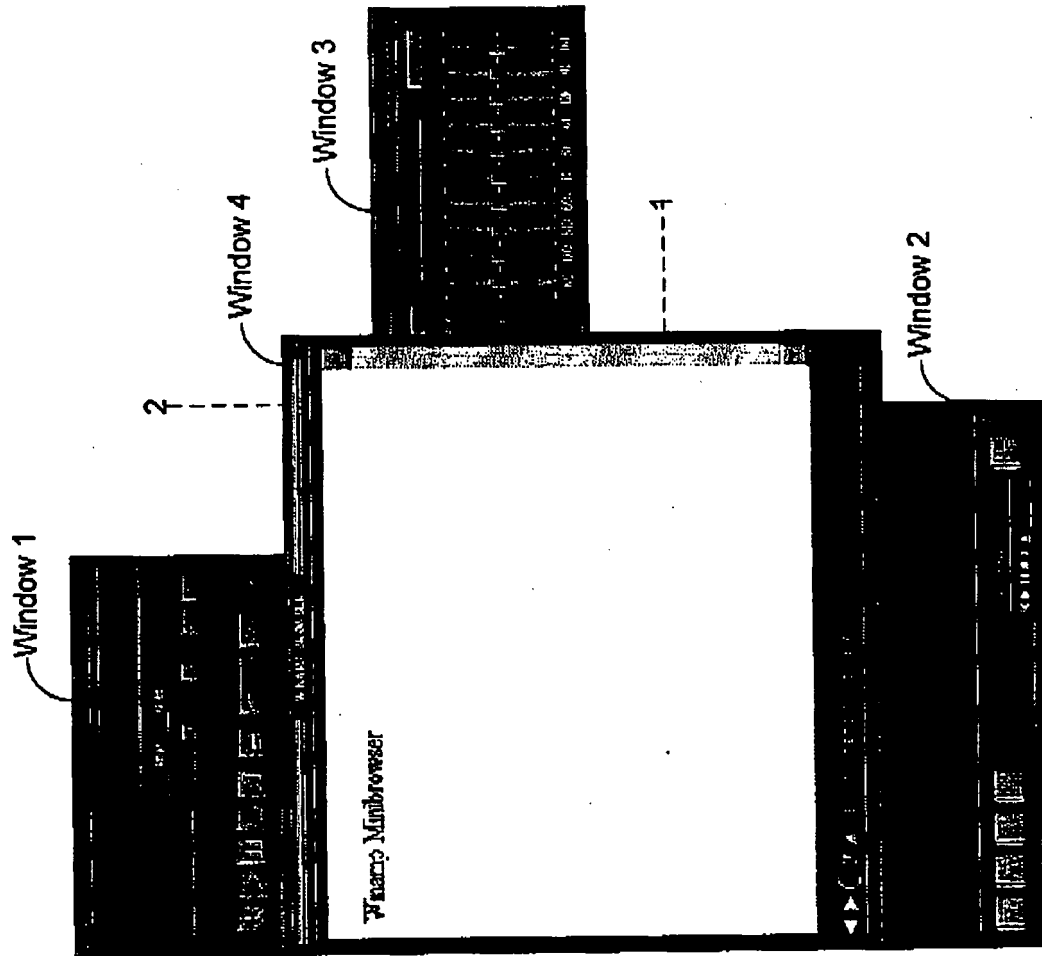

FIG. D further illustrates that moving the bottom and right edges of Window 4 does not cause a movement of the adjacent top edge of Window 2 or the left edge of Window 3. The dashed line 1 indicates where the top edge of Window 3 remains and the dashed line 2 indicates where the left edge of Window 3 remains.
